3. _____	(Double Award students only)
Reserve: _____	(ALL Students)

Some combinations of subjects may not be possible because of timetabling and other constraints.

Pupil's Signature _____ Date _____

Choosing your GCSE subjects

You have reached an important stage in your educational journey and now have the opportunity to choose some of the subjects you will study for the next two years.

It is important to give these choices careful thought as:

- GCSE grades are used by universities and employers to select their employees/students;
- You cannot repeat GCSE examinations in Banbridge Academy;
- All GCSE grades must be declared on application forms;
- In some cases, your choice of GCSE subjects will determine which subjects you can study at A Level;
- The subjects you study at A Level may determine the course you can study in the future, should you wish to go to university.

You must choose your subjects for the correct reasons. Consider the following carefully:

- **Which are my favourite subjects?**
- **Which subjects am I strongest in?**
- **Do I have any particular careers in mind? Does this discipline require me to have studied specific subjects at GCSE or A Level?** (see web site below)

To help you consider these points, log onto www.nidirect.gov.uk/careers - Education Learning & Skills – Careers – Education & Training - Still at school - **Subject choices at Year 10**. This also includes a short informative video.

Also have a look at: **Options after Year12** AND **Options after Year 14**

Also:

www.whatuni.com - allows you to research undergraduate degree courses and A Level subject requirements/grades
www.prospects.ac.uk - Discover where your degree could lead

To assist the Careers Department and the timetabling team, please indicate which of the following options you may consider after Year 12. If unsure of your future pathway you may tick more than one option.

- Stay at school to complete A Levels
- Apply for a university course during Year 14
- Apply for a Higher Level Apprenticeship during Year 14
- Attend a Further Education College (eg SRC) to take a BTEC course in a chosen discipline
- Leave school to seek an Apprenticeship/job

Please complete this section by listing any career pathways which appeal to you at present.
